

1.7 Create Visualization and Dashboard

- 1- Go to Kibana click on Dashboard
- 2- choose Create Visualization
- 3- in KQL write `event.code:4625` to filter **login failed**
- 4- drag and drop `user.name` field in Horizontal axis
- 5- choose count in Vertical axis and make it work in **Descending order**

- save now the changes and save the Dashboard and name it DEPI-SOC
